

HDP 146

Sewer cleaning pump

Compact design

- Optimum space utilisation
- Integral reduction gear

Adaptability provides installation options

- Horizontal or vertical models
- Reversible pump head
- Central or side suction connection
- Discharge connections on both sides
- Left or right hand drive shaft
- Can operate at higher inclinations

Water end: suitable for recycled water

Less wear due to :

- High grade solid ceramic plungers
- Wear resistant valve seats
- Low flow velocity over suction and discharge valves
- Packing seal sets within rust resistant stainless steel sleeves
- Slow plunger speed

Drive end

- Hammelmann standard industrial drive end specifically designed for continuous duty
- Pressurised oil lubrication system
- High quality spheroidal cast iron housing
- Clockwise or anticlockwise rotation

Easy servicing

- Reversible valve seats
- Suction and discharge valves use identical components
- Maintenance possible without removal of suction and pressure lines
- All service access front/above
- Fixed valve housing accessible via light weight cover plates

Environmentally friendly

- Quiet drive end due to twin helical gears
- Piston rods hermetically sealed by the NBR bellows, no oil leakage
